AccuKnox Escalation Matrix

Severity Levels & Definitions

Severity Level	Definition	Examples
P1 (Critical)	AccuKnox is down and inaccessible. Severe service failure or degradation affecting multiple users.	• Users cannot access a business-critical Application. • Consistent “page not found” errors prevent login.
P2 (High)	Partial service failure or mild degradation. Some, but not all, business resources are accessible.	• Admin console write-access issue. • Users experience slow access, occasional “page not found” errors. • Bug causing significant impact to service or integration.
P3 (Medium)	Minor service impact, affecting individual users or non-critical third-party applications.	• One user is unable to access an application. • Difficulty integrating new business applications.
P4 (Low)	Minor impact or feature enhancement request.	• How-to inquiries. • Feature enhancement requests.

Technical Account Manager Contact Details:

You can reach our support team through the following methods, listed in order of preference:

1. Email

- a. Send an email directly to support@accuknox.com.

2. Jira Service Desk
